Syllabus of Project Management Academic Year 2024 -2025

1. General information	
Course Code	UPr 2301
Course Title	Project management
Degree Cycle (Level)/ Major	Bachelor
Year, semester	2024, 7 th trimester
Number of Credits	5
Language of Delivery:	English
Prerequisites	Technological Entrepreneurship
Postrequisites	Diploma work/project
Lecturer	Nurkhat Ibadildin Ibadildin.Nurkhat@astanait.edu.kz Astana IT University, Expo, C3 block, 3rd floor, office C1.3.352
2. Goals, objectives and learning outcomes of the course	
1. Course description	The academic discipline is aimed at developing the skills of using project management tools at various stages of the project life cycle. The subject of the discipline is the qualitative and quantitative assessment of project risks and the determination of its effectiveness.
2. Course goal(s)	The main goal of Project management course is to introduce major concepts that are necessary for starting the new projects and methods of controlling and monitoring new or existing projects of the companies.
3. Course objectives:	Develop an understanding of modern project management fundamentals. Be able to analyze projects through different methodologies based on the project's results and make decisions as a project manager. Understand project's documents from manager's point of view.
4. Skills & Competences	Project management literacy; reading and producing project's documents; planning; teamwork; decision making; communication; leadership; work ethics; problem solving; organizational skills.
5. Course Learning Outcomes:	At the end of the course students should be able to: Understand project management fundamentals through reading textbook and lecturing on course topics. Communicate effectively on project management. Apply work breakdown structures (WBS) for the project. Employ necessary network scheduling techniques. Create a project management plan. Implement a developed project management plan. Advance in concepts that will assist the student in his/her development academically, ethically, analytically, and develop as a project manager.
6. Methods of Assessment	Class discussions; team presentations; written exams; attendance

7. Reading List	Textbook: Project Management: A Systems Approach to Planning, Scheduling, and Controlling, 12th ed. Harold Kerzner, ISBN-10: 9781119165354, ISBN-13: 978-1119165354, 2017 Project Management Case Studies 5th Edition, Harold Kerzner, ISBN-10: 1119385970, ISBN-13 : 978-1119385974, 2017 PMI-ACP Exam Prep: A Course in a Book for Passing the PMI Agile Certified Practitioner (PMI-ACP) Exam (Updated Second Edition). Mike Griffith, ISBN-10: 1932735984, ISBN-13: 978-1932735987, 2018 A Guide to the Project Management Body of Knowledge (PMBOK® Guide)–Sixth Edition, Project Management Institute, ISBN-10: 9781628251845, ISBN-13: 978-1628251845, 2017 Successful Project Management 7th Edition, Cengage Learning, ISBN-10: 1337095478, ISBN-13: 978-1337095471, 2017 Contemporary Project Management 4th Edition, Timothy Kloppenborg, Vittal S. Anantatmula, Kathryn Wells, Cengage Learning, ISBN-10: 9781337406451, ISBN-13: 978-1337406451, 2018 Information Technology Project Management 9th Edition, Kathy Schwalbe, Cengage Learning, ISBN-10: 9781337101356, ISBN-13: 978-13371013562018, 2018
8. Resources	ipma.world kpma.kz pmi.org pmiqaz.org
9. Course policy	Course and university policies include: Attendance: Students are expected to attend all scheduled class sessions with all required reading and supplementary materials. Readings are to be completed prior to class. The student won't obtain additional points for course attendance, but the attendance is important to pass the course. In case the student is not able to attend the classes for some reasons, he/she must inform the dean's office in advance and the student itself is responsible for learning all materials, which were given during unattended lessons. In case if the student did not attend more than 30% of the classes without any reasonable excuses, the teacher has a right to mark him as "not graded", and the student wouldn't be admitted to the exam. In other words, students must participate in at least 70% of all class time, otherwise he/she fails the course. Preparation for Class: Class participation is a very important part of the learning process in this course. Although not explicitly grade, students will be evaluated on the QUALITY of their contributions and insights. Quality comments possess one or more of the following properties: - Offers a different and unique, but relevant, perspective; - Contributes to moving the discussion and analysis forward; - Builds on other comments. Class work: The duration of each lecture and practical lesson is 50 minutes for offline and online classes. Students are expected to complete all readings and assignments ahead of time, attend class regularly and

participate in class discussions. In case of systemic student's misconduct, the student would be dispensed from the classes.

Being late on class: When students come to class late, it can disrupt the flow of a lecture or discussion, distract other students, impede learning, and generally erode class morale. Moreover, if left unchecked, lateness can become chronic and spread throughout the class. By the policy of this course, students who come late to class for more than 5 minutes are not allowed to get in to class and consequently, they will be marked as "absent" for the specific hour.

Attestation I and II: Students with score less than 25% for Attestation period I or Attestation period II (RK1/RK2) are automatically failed and should take the course again.

Home work / Assignments: The assignments are designed to acquaint students with the theoretical knowledge and practical skills required for the course. The textbook readings will be supplemented with materials collected from recent professional articles and journals. In case of using someone's work (papers, articles, any publications), all works must be properly cited. Failure to cite work will be resulted as a cheating from the students and may be a subject of additional disciplinary measures.

Late assignments: Most assignments will be discussed in class on the due date, therefore late assignments will not receive credit. It is expected that all work will be submitted on time. Failure to pass assignments in on time will result in 0% for the assignment. In other words, no late submissions are allowed. All gradings are based using a percentage grading scale.

In the event of some extraordinary event, students should notify the instructor and request an extension of the deadline. If approved, a new date will be given to the student depending upon the circumstances.

Final exam: The final exam for the course is written exam based on situational analysis.

Laptops and mobile devices can only be used for classroom purposes when directed by the instructor. Misuse of laptops or handheld devices will be considered a breach of discipline and appropriate action will be initiated by the instructor.

Online lessons can be used in case if there won't be a chance to make offline traditional lessons. It must not discourage the interest and enthusiasm of students. The main software to run the online lessons is Microsoft Teams for video calls and live webinars, and Moodle (moodle.astanait.edu.kz) as a Learning Management System. Also, some alternatives such as Skype or Telegram messenger may be involved as an additional workaround.

Cheating and plagiarism are defined in the Academic conduct policies of the university and include:

1. Submitting work that is not your own papers, assignments, or exams;

	2. Copying ideas, words, or graphics from a published or unpublished source without appropriate citation; 3. Submitting or using falsified data; 4. Submitting the same work for credit in two courses without prior consent of both instructors. Any student who is found cheating or plagiarizing on any work for this course will receive 0 (zero) for that work and further actions will also be taken regarding academic conduct policies of the university. Academic Conduct Policies of the university: The full texts of all the academic conduct code will be posted to the students using Learning Management System (moodle.astanait.edu.kz). Contacting the Instructor: The easiest and most reliable way to get in touch with the instructor is by email. Students must feel free to send email if you have a question related to the course. The instructor will respond as soon as he can but not always instantaneously. Besides that, students are also welcomed to arrange a one-to-one meeting with the instructor by his office during office hours to discuss the class using both offline and online ways.

3. Course Content

#	Abbreviation	Meaning
1	TSIS	Teacher-supervised independent work
2	SIS	Students' independent work
3	IP	Individual project
4	PA	Practical assignment
5	LW	Laboratory work
6	MCQ	Multiple choice quiz

Teacher-supervised independent work (TSIS) - Team Project

Teams of 3-4 students will work together during the semester to prepare group project and submit comprehensive written report on that project (15-20 pages; 1.5 space, Times New Roman) with a cover page according to provided standards. The project report should be submitted through Moodle according to class schedule.

Reports will be evaluated along the following criteria:

- Quality of the writing - clear, straight, and correct style and grammar (10%);
- Quality of the structure and organization; smooth, logical flow of content (10%);
- Quality and amount of reflection, analysis, comparison, and evaluation (10%);
- Proper use of literature (4%).
- Quality of presentation (6%)

Projects will wrap up with the oral presentation and defense lasting twenty minutes in total. Use of PowerPoint along with any other appropriate technology is expected. Be creative when preparing and making your presentation. Avoid reading your paper in class. Concentrate on the main points. Defense of group project determines the level of theoretical knowledge and practical skills of the group members. Student have to summarize the contents of the paper, give satisfactory answers to questions. Once the teams are formed, each team will receive a number. While submitting teamwork reports for checking and grading, please include the following information on the cover page to assure proper credit:

- Team number
- ID of all students in the team with their last and first names, and email addresses
- Title of the study
- Course name (Project Management)

3.1 Lecture, practical/seminar session plans

Week No	Course Topic	Lectures (h/w)	Practice sessions (h/w)	TSIS	SIS
1	<i>Introduction to Project Management</i>	2	2	TSIS 1	SIS 1
2	<i>Planning and Network Scheduling Techniques</i>	2	2	TSIS 2	SIS 2
3	<i>Pricing and Estimating</i>	2	2	TSIS 3	SIS 3
4	<i>Cost Control and Group Behavior</i>	2	2	TSIS 4	SIS 4
5	<i>Organizational Structures</i>	2	2	TSIS 5	SIS 5
6	<i>Agile Principles and Mindset</i>	2	2	TSIS 6	SIS 6
7	<i>Scrum framework</i>	2	2	TSIS 7	SIS 7
8	<i>Practices in agile frameworks</i>	2	2	TSIS 8	SIS 8
9	<i>Value-Driven Delivery</i>	2	2	TSIS 9	SIS 9
10	<i>Stakeholder Engagement</i>	2	2	TSIS 10	SIS 10
Total:		20	20		

3.2 List of assignments for Student Independent Study (SIS)

Week	SIS	Assignment for SIS	Grade (in points)
1	SIS 1	Reading required lecture 1 and participating in discussion.	1
2	SIS 2	Reading required lecture 2 and participating in discussion.	1
3	SIS 3	Reading required lecture 3 and participating in discussion or team presentation.	1
4	SIS 4	Reading required lecture 4 and participating in discussion.	1
5	SIS 5	Reading required lecture 5 and participating in discussion or team presentation.	1
MIDTERM EXAM			
6	SIS 6	Reading required lecture 6 and participating in discussion.	1
7	SIS 7	Reading required lecture 7 and participating in discussion.	1
8	SIS 8	Reading required lecture 8 and participating in discussion or team presentation.	1
9	SIS 9	Reading required lecture 9 and participating in discussion.	1
10	SIS 10	Reading required lecture 10 and participating in discussion or team presentation.	1
TOTAL			10

3.3 List of assignments for Teachers Supervised Independent Study (TSIS)

Students can choose any industry with relevance to IT management

Week	TSIS	Assignment for TSIS	Grade (in
------	------	---------------------	-----------

			points)
1	TSIS 1	Advising on team projects	1,5
2	TSIS 2	Supervising on team projects	1,5
3	TSIS 3	Delivery of team projects	1,5
4	TSIS 4	Supervising on team projects	1,5
5	TSIS 5	Delivery of team projects	1,5
		2ND ATTESTATION	
6	TSIS 6	Supervising on team projects	1,5
7	TSIS 7	Supervising on team projects	1,5
8	TSIS 8	Delivery of team projects	1,5
9	TSIS 9	Supervising on team projects	1,5
10	TSIS 10	Delivery of team projects	1,5
		TOTAL	15

4. Student performance evaluation system for the course

Period	Assignments	Number of points	Total
1 st attestation	Lecture tests (Week 1-5)	10	30 (100%)
	Team project 1 part 1 (Week 3)	10	
	Team project 1 part 2 (Week 5)	10	
2 nd attestation	Lecture tests (Week 6-10)	10	30 (100%)
	Team project 2 part 1 (Week 8)	20	
Final exam	Final exam group project	40	40 (100%)
Total	0,3 * 1st Att + 0,3 * 2nd Att + 0,4*Final	100	100

If a student receives less than 25% on 1st or 2nd attestation, it means automatic fail of the course.

Achievement level as per course curriculum shall be assessed according to the evaluation chart adopted by the academic credit system.

Letter Grade	Numerical equivalent	Percentage	Grade according to the traditional system
A	4,0	95-100	Excellent
A-	3,67	90-94	
B+	3,33	85-89	
B	3,0	80-84	Good
B-	2,67	75-79	
C+	2,33	70-74	
C	2,0	65-69	Satisfactory
C-	1,67	60-64	
D+	1,33	55-59	
D	1,0	50-54	Fail
FX	0	30-49	
F	0	0-29	

GRADING CRITERIA

Based on the specific grade for each assignment, and the final grade, following criteria must be satisfied:

Grade	Criteria to be satisfied
90-100	- Work would be worthy of further dissemination under appropriate conditions - Mastery of advanced methods and techniques at a level beyond that explicitly taught - Ability to synthesize and employ in an original way idea from across the subject - Outstanding command of critical analysis and judgment
80-89	- Excellent range and depth of attainment of intended outcomes - Mastery of a wide range of methods and techniques - Evidence of study and originality of what has been taught - Able to display a command of critical analysis and judgement
70-79	- Attained all the intended learning outcomes for a unit - Able to use well a range of methods and techniques to come to conclusions - Able to employ critical analysis and judgement
60-69	- Some limitations in attainment of learning objectives, but has managed to grasp most of them - Able to use most of the methods and techniques taught - Evidence of study and comprehension of what has been taught but grasp insecure - Some grasp of the issues and concepts underlying the techniques and material taught, but weak and incomplete
50-59	- Attainment of only a minority of the learning outcomes - Able to demonstrate a clear but limited use of some of the basic methods and techniques taught - Weak and incomplete grasp of what has been taught - Deficient understanding of the issues and concepts underlying the techniques and material taught
25-49	- Attainment of nearly all the intended learning outcomes deficient - Lack of ability to use at all or the right methods and techniques taught - Inadequately and incoherently presented - Wholly deficient grasp of what has been taught - Lack of understanding of the issues and concepts underlying the techniques and material taught
0-24	No significant assessable material, absent or assessment missing a must pass component

5. Methodological Guidelines

Assessment is administered continuously throughout the course. The students are rated against their performance in continuous rating administered throughout the semester (60%) and summative rating done during the examination session (40%), total 100%. Continuous rating is students' on-going performance in class and independent work. Class work is assessed for attendance group projects' defense and in- class assessments.

- **TSIS (Teacher Supervised Student Independent Study)** - comprises presentation to be done by students independently and checked by instructor.
- **Mid-term and End-term** is a review of the topics covered and assessment of each student's knowledge. The form of the midterm and endterm exams is complex.

- **Final assessment:** for the course “Project Management” is written exam in the Learning Management System (moodle.astanait.edu.kz). No late submissions are allowed in the exam.

SYLLABUS IS TENTATIVE AND SUBJECT TO CHANGE.
